

ATB-Open air column

- Suitable for the accommodation of control cabinets and compressors (see options)
- Cover hood completely removable upwards and lockable as protection against rain
- Material: PE, 100% recyclable
- Colour: Grey
- Max. weight for control system without mounting plate: 750 g
- Weight: ca. 9 kg

Options:

- Colour: Olive green, others on request
- Mounting plate (370 x 310 mm [H x W])
- Compressor base plate incl. rubber buffer
- Drainage fill for column
- Empty pipe plugs
- Further accessories available in the ATB Shop

Installation

- Excavate deep hole (ca. 700 x 650 x 500 mm [H x W x D])
- Place open air column on firm substrate and adjust (gravel or lean-mix concrete)
- Feed empty pipe through the opening designated for this (240 x 160 mm) and, if required, arrange an upwards U-bend. In order to prevent an intrusion of filling material it is recommended to fill the column inside with gravel or any other suitable filling material
- Fill hole up to the marking using sand and/or excavated material and compact manually (!)
- Finished!
